4) Everyone knows everything about each other, which makes you afraid of making mistakes.

5) Countryside might be boring for teenagers, as it doesn't have many places to see, as well as due to a small population, there isn't a wide variety of events, such as big concerts or festivals.

Ex. 8. Nowadays, teenagers have many opportunities to spend their time ~~with~~ pleasure, which is provided by modern technologies.

That's probably why my peers spend 30% of their time online, playing videogames, or texting.

As teenagers are in the process of growing physically, they require around 8 hours of sleep and 3 meals a day, which makes up 30 and 15% of their day.

Studying is an important part of everyone's life, especially the young ones', who absorb information better. Teenagers spend 15% of the time learning something new at school or on their own or doing their homework.

Only 10% of the Volcey take up sports, probably because it is believed that teenagers ~~don't~~ spend all their time online. The small percentage might be a PE class, or a sport hobby, or just walking around.

In conclusion, daily activities of modern teenagers are heavily influenced by the modern technologies that allow to both rest and damage their health.
