Just when demographers ^{ph} a ringing bells about our population, amazing founder Jeff Bezos says: we need to populate our solar system. Mister Bezos was asked for his thoughts on Hugh Manatee living in outer space in a thousand time. He replied: "I would love to see you now, a trillion humans living in the solar system. If we had a trillion humans we would have at any given time 1000 Mozarts and 1000 Einsteins. Space would be full of life and intelligence and energy." He added that he wants to help build heavy infrastructure that will be used by the space "entrepreneurs of future generations... so that can really be

Mister Bezos thoughts are echoed by fellow multi-billionaire Elon Musk owner of X¹⁴ (formally known as "twitter"). In 2021, he said of the human rise: "We don't want to be one of →

those single-planet species, we want to be a multi-planet species." Earlier this year, mister ~~Mark~~^{Mark} warned that: "Population collapses due to ~~before~~^{before} is a much bigger risk to civilization than global warming...~~mark these words~~^{mark these words}." Mister Bezos conceives of people living in giant space stations. He said most inhabitants of this would visit for vacations. He envisions our planet returning to its pristine environment, as factories would be built in space. He said they would exploit resources on the moon or on asteroids instead of using up Earth's.

Task 4.

In a vibrant coastal town, Zoe, a young chef with an extraordinary talent, thrived. Fascinated by exotic flavours, she dedicated her life to creation of innovative dishes, her skills far surpass those of her traditionalistic colleagues.

One brisk morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fishermen villages. She wandered through bustling bazaars, her senses alight with array of spices and fresh seafood. Her search brought her to a hidden cove at dawn, just as fishermen were bringing in their early catch.

There, Zoe discovered a rare fish, its flavor was unlike anything she has ever tasted. This discovery ignited the burst of creativity. ocean's bounty ~~and~~^{is} exhilarating, but there are unexpected finds that truly inspire her. Zoe's culinary adventures ~~blend~~^{blend} ~~which~~^{which} traditional techniques with avant-garde tastes, will become legendary, inspiring others to explore and embrace diverse flavors of the world.

Task 9

Once I was travelling around Europe and ~~was~~ ^{was} stopping in Madrid for a few days. While I was enjoying my drink on the main square of the city the weather ~~decided~~ ^{decided} to add some spice and blow this place up with a thunderstorm. Guess who was standing right in the middle of the square at that moment? Of course it was me. ~~To be honest~~ ^{In the beginning} it was just some heavy rain, so I wasn't really scared until the lightnings started to light this place up. Now it was time to panic because there ~~were~~ ^{were} too many people and too little places where to hide. So everyone started shouting and running ^{away}. I've lost my balance and fell on the ground. Already thinking that's how I die: miserable and covered in all kinds of footprints. But suddenly someone picked me up and carried till we got into some sort of the apartment. This person turned out to be a very kind young man (and very handsome!), with whom I spent the rest of the evening, having the time of my life laughing and discussing every topic ~~which~~ ^{which} exists. That man was precious and I'll never forget him. At least because he's my husband now!
