Task 3

Just when demographers are ringing alarm bells about overpopulation, AMAZON founder Jeff Bezos says we need to populate our solar system. Mister Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans we would have at any given time 1,000 Mozarts and 1,000 Einsteins.... Space would be full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure that will be used by the space entrepreneurs of future generations... so that ingenuity and imagination can really be ~~on the~~ ^{lived}."

Mister Bezos' thoughts are echoed by fellow multi-billioner Elon Musk, owner of X (formerly known as TWITTER). In 2021, he said of the human race: "We don't want to be one of those single-planet species; we want to be a multi-planet species." Earlier this year Mister Musk warned that: "Population collapse due to low birth rates is a much bigger risk to civilization than global warming... mark these words." Mister Bezos ~~can~~ conceives of people living in giant space stations. He said most inhabitants of these world would visit Earth for vacations. He envisions our planet returning to its pristine environment, as factories would be built in space. He said they would exploit ~~the~~ resources on the Moon or on asteroids instead

of using up Earth's.

Task 4

In a vibrant coastal town, Zoe, a young chef with an extraordinary talent, thrived. Fascinated by exotic flavours she dedicated her life to creating innovative dishes, her skills far surpassed those of her traditionalist colleagues.

One brisk morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she explored the local markets and remote fish villages. She wandered through the bustling bazaars, her senses alighted with an array of spices and fresh seafood. Her search brought her to a hidden cove at dawn, just as the fishermen had brought in their early catch.

There, Zoe discovered rare fish, its flavour, unlike anything she had ever tasted. This discovery ignited a burst of creativity: the ocean's bounty was exhilarating, but there were unexpected findings that truly inspired her. Zoe's culinary adventures, blending traditional techniques with avant-garde tastes, soon became

legendary, inspiring others to explore and embrace the diverse flavours of ~~the~~ the world.

Task 9.

A BLESSING IN DISGUISE

sceptic

Being a ~~sceptic~~ ^{sceptic} my entire life, I never believed in destiny, or ~~anything~~ ^{anything} similar. Yet, one event did make my beliefs shatter, despite how strong I thought they were. It happened three years ago and ~~turned~~ ^{turned} my life upside down.

The event took place in the city of New York, where I had been trying to make ends meet after being expelled from ~~my~~ college. Finding a decent job never worked out so I ~~took~~ ^{stepped on} the dark path of dodgy business.

One time, I negotiated a deal which ~~set up~~ ^{was} a set-up ~~to~~, meaning I was supposed to carry out a pretty much illegal job. As it was a otherwise ~~entailing~~ ^{basically} my prosecution. When I had realised that something was wrong, the ~~two~~ ^{my} guards of my "client" started following me. In other words, I tried to escape from performing my part of the deal, causing the ^{my} client to take such brutal measures as to physically prosecute me.

I ~~ran into~~ ^{ran into} I entered the first building in my sight. Somehow I found myself in an office of ~~Mr. Jackson~~ ^{Mr. Jackson} and he said: "You must be John Specter. For your information, I need an associate who ~~with~~ ^{can} think outside the box and doesn't take "NO" for an answer." Basically, I accidentally came to an interview in a law firm to fulfil the position of an associate. Given the fact that I have a photographic memory, I easily recited all the questions that ~~Mr. Jackson~~ ^{Mr. Jackson} asked.

as I used to read a lot about ^{the} low. He was so fascinated by the level of my expertise ^{and} phenomenal memory ~~and creativity~~ that he instantly hired me! 120.

Need I say how happy I was? That's how I got from poverty into a successful and promising life by just being in the right place at the right time. You think destiny? It's all destiny's doing? Might as well be.

Task 8

Louisiana is a state, which at the time doubled the size of the United States of America. It was purchased from France Napoleon in particular, for approximately 15 million dollars. It also enabled access to the port in New Orleans, which was beneficial for the trade.

Alaska is one of the most remote states with rich natural resources, which was a primary reason for its purchase from Russia. It has great resources of fuel, which had an impact on the economy of the USA.

Hawaii is regarded as a ^{great} place for having a vacation there, due to its mild climate. What's interesting is that it was the last state to ever join the USA.

Florida used to be a Spanish colony, which had to be purchased for about ~~7~~ seven million dollars, which in comparison with the "Louisiana Purchase" was a less beneficial deal.

California is the heart of technological advances. It's renowned for "the Silicon Valley" where many great start-ups are placed as FACEBOOK or GOOGLE.
