I can imagine a few reasons that she could give to you.

First of all she could say that there's no internet connection, so she can't chat with her friends or watch some YouTube videos. Also, she could mention that there are a lot of cows, horses, sheep and so on. Maybe she doesn't like them, it or has an allergy. One more reason is that there are not so many places where she can have fun, like shopping malls.

Today I'd like to talk about teenagers' daily activities.

The biggest part of teenagers' day is sleeping. I think that can be caused by lots of studying and another activities.

The sports which together take a quarter of teenager's day. Eating is a 15% ~~to~~ of a day which is normal because every healthy teenager needs to eat 3 times a day minimum. But also everyone ~~needs~~ need to chat with their friends, that's why teenagers use the net 20% of their day. Not a lot of them like to spend time outside. And last 10% of their time is videogaming which work as a way to forget about some problems in school or with friends. You can live another life playing videogames.

Finally I think that nowadays teenagers' activities are less active than teenagers' activities a few years ago.

That's because of the technologies that are a way better nowadays than ten or twenty years ago.
