Task 3:

Just when demographers are ringing alarm bells about over-population, Amazon founder Jeff Bezos says we need to populate our solar system. Mr Bezos was asked for his thoughts on humanity living in outer space in a thousand years' time. He replied: "I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1,000 Mozarts and 1000 Einsteins. Space would be full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure that will be used by the space entrepreneurs of future generations... so that ingenuity and imagination can really be unleashed".

Mr Bezos' thoughts are echoed by fellow multibillionaire Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be one of those single-planet species; we want to be a multi-planet species". Earlier this year, Mr. Musk warned that: "population collapse due to low birth rates is a much bigger risk to civilization than global warming... mark these words". Mr Bezos conceives of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet returning to its pristine environment, as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up Earth's.

Task 4

In a vibrant coastal village, Zoe, a young chef with extraordinary talent, was known. Enamored by exotic flavors, she dedicated her life to creating innovative dishes, her skills far surpassing those of her traditionalist colleagues.

One breezy morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fishing villages. She wandered through bustling bazaars, her senses alight with an array of spices and fresh seafood. Her search brought her to a hidden cove at dawn, just as the fishermen were bringing in their early catch.

There, Zoe discovered rare fish, its flavor unlike anything she had ever tasted. This discovery ignited a burst of creativity. The ocean's bounty was exhilarating, but there were unexpected finds that truly inspired her. Zoe's culinary adventures, blending traditional techniques with avant-garde tastes, soon became legendary, inspiring others to explore and embrace the diverse flavors of the world.

Task 5

- 1 Greedflation - a total increase in the population's desire to accumulate wealth and sacrifice everything else for that goal.
- 2 Deinfluencing - making people stop being motivated by others' thoughts, emotions or beliefs
- 3 Ultra-processed - put through so much chemical adjustments that it becomes barely organic product
- 4 Neco baby - a child obsessed with technology, not willing to participate or learn in the real world.
- 6 beige flag - a declaration of complete neutrality and indifference towards the issue at hand.

Task 8

1) Hawaii and its capital Honolulu are well known for being amazing for tourism: a warm climate, the sea and beaches, along with an indigenous culture inhabiting these islands. Hawaii is where the famous children's movie "Kiki and Stitch" takes place.

2) Minnesota and its capital St. Paul are known for their religious leanings. This state has ^{more} Protestant churches than others. In fact, the famous star singer Elvis Presley used to perform here quite often, he loved this place.

3) Illinois is most known for its warm climate and its capital city - Springfield, where the famous show "The Simpsons" was created. This state is known for housing nuclear-powered factories.

4) Delaware with its capital Dover is located in the eastern ^{coast} part of the US and thus functions as a port (the capital in particular). Of course, because of that seafood and fishing is very popular there.

5) California is one of the largest states of America and also, along with Texas, one of the most political. In California there are more Democrats (members of the Democratic Party) than anywhere else, which means that it focuses very much on rights for minorities.

Task 9

"A Misadventure Turned Adventure".

It was a rainy evening and Bobby, a fifteen-year-old school boy, decided to go somewhere indoors and wait for the rain to stop. He entered a ^{random} cafe and immediately noticed that the only customers were seven feet tall, incredibly muscular ^{men} ~~sporting long~~ beards and some of them were missing an eye ~~as a boy~~.

"Oh boy," said the boy.

"Oh man!" yelled a man, ~~grabbing down a big bottle~~. He continued;

"Well, boys! Let's go hunting... Wait, who's ^{this} kid?" He noticed Bobby who'd already had his words leave ^{him} at the doorstep.

"Eh, let's just take him with us" the gang decided and ^{then} went outside.

"What even is this?!" thought Bobby as he was trying to catch up with a dozen jocks running in the rain. One of them noticed and picked up the boy, putting him on his big back.

"Name's Jeff. We're the FBI"

"What?!"

"Friends! Bringing! Ideals-to-life!"

He explained that they were peace-making warriors who helped others.

Bobby wanted to leave but the gang was suddenly confronted by earthworms, ~~which~~ ^{which} they all feared.

Except Bobby. He ^{just} ate the worms - his favourite food.

The gang loved him since then and took him with them for all their "battles" - every day became an adventure.

~~That's how a misadventure can turn into an adventure.~~
