Mr Bisas was asked for his thoughts on humanity living in auto-space in a thousand ages time. He replied: "I would love to see you now, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1000 Mozarts and 1000 Einstehns... Space would be full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure that will be used by the space antrepreners of future generations... So that ingenuated^m imagination can really be on lift₂".

Mr Bisas' thoughts are accord by fellow multi-bilio near Elon Mask, owner of Ex (formatly known as Twitter). In 2021, he said of the human rise: "We don't want to be won of those single-planet species; we want to be a multi-planet species". Earlier this year, Mr Mask wund that: "Population collaps due to low bath rates is a much bigger risk to civiliza-tion than global warming make this wards". Mr Bisas conseves of people living in giant space stations. He said most inhabitants of this would visit Earth for vacations. He invisions our planet returning to its pristine environment, as factories would be built in space. He said they would explate resources on the Moon or on asteroids instead of using up Earth's.

Task 3. A Misadventure Turned Adventure

Two years ago me and my sister Ann decided to travel around the world. As a destination, we choosed Austria. We thought this place will be a great opportunity for us to attend cultural ~~place~~ sights because Austria is really rich with history and famous people who lived and worked there. So we went to the travel agency, told the workers about our wish and asked to help us with the tour. They asked us about the length of our trip and the budget. We spontaneously bought the tour and got the papers with the programme. After a week, we came to the ~~on~~ airport. It was night, so we were not concentrated and didn't pay any attention to the words of the airport's staff.

~~Finally we finished~~ We finished a long "check-in" and found our gate. At 5.00 am we went to the plane, put our bags on a shelf and got

ready to the flight. And then we heard the pilot's speech: "Dear guests, today we are flying to Australia". In that moment we were shocked. How?! To Australia?! We are going to Austria!

But it was late to escape, because the plane had already started to move on. So we had to put up with the thought that our adventure is failed and ~~just~~ fly to another continent. We hadn't even taken swimsuits, sunglasses and light clothes... It was a real surprise. In 5 hours we landed in Australia.

It turned out that our travel agent missed Austria and Australia. He booked a trip to Australia for us. After that ~~call~~ phone call we caught a taxi to go to the hotel. On our way we went to the local market to buy some light clothes.

After coming to the hotel, we put on new swimsuits and went swimming in the ocean.

The next 7 days we were enjoying the sun, exotic fruits and warm water. Then we decided not to miss ~~our~~ ^{our} chance and go to safari.

There we saw and even fed Kangaroos. They were extremely nice! That week every day we laughed about the situation with Austria and Australia.

Yes, they have such similar names so it's too easy to miss them. By mistake we flew to Australia and firstly thought it was the tragedy of our life but then we looked on a bright sight and started enjoying our holidays. Now we often remember about that trip and everytime say it was our best travelling experience. That's how once a misadventure turned to be a real adventure!
