Task 3

Just when demographers are ringing alarm bells about overpopulation, amazing founder Jeph Bezos says we need to populate our solar system. Mister Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins... Space would be full of life and intelligence and energy". He added that he wants to help "build heavy infrastructure that will be just by the space entrepreneurs of future generations... so that ingenuity and imagination can really be unleashed."

Mister Bezos thoughts are echoed by fellow multi-billionaire Elon Musk, owner of X (formerly known as Twitter). In 2021 he said of the human race: "We don't want to be one of those single-planet species; we want to be a multi-planet species". Earlier this year,

Mister Musk warned that "population collapse due to low birth rates is a much bigger risk to civilization than global warming... mark these words. Mister Bezos conceives of people living in giant space stations. He said that most inhabitants of this would visit Earth for vacations. He envisions our planet returning to its pristine environment, as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up Earth's.

In vibrant coast town, Zoe, a young chef with an extraordinary talent, thrived. Fascinated by exotic flavors, she dedicated her life to ~~creating~~ innovative dishes, her skills far surpassed those of her traditional colleagues.

One brisk morning, Zoe embarked on spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fish villages. She wandered through bustling bazaars, her senses alighted with array of spices and fresh seafood. Her search brought her to ~~hidden~~ hidden cove at the dawn, just as fishermen bring in their early catch.

There, Zoe discovered rare fish, its ~~flavor~~ flavor unlike anything she had ever tasted. This discovery ignited burst of creativity: ocean's bounty were exhilarating, but there were unexpected finds that truly inspired her. Zoe's culinary adventures, blended traditional techniques with avant-garde tastes, soon became legendary, inspiring others to explore and embrace diverse flavors of the world.

- TASK 9

Of climber's luck

What nice a day it was! Little birds were twirling and the sun was shining. It was a sin ~~to~~ not go out. At least that's what I thought, putting my old hat snickers on. I went out and made up my mind to go to the beach. But what a misfortune. It started to rain! My shirt became as wet as a cat! My little adventure became a total mess. I ran as fast as I could, hid my body under a tree. The lightning. Boom! In the light I saw a little girl, sitting under the palm. I was terrified. A little girl? Alone? Under the rain?! I must lead her home! But oh, ^{it was} ~~it was~~ talking cats and dogs and all I had was a purse, which wasn't enough to cover up. What I decided to do? Climb up the tree to get the palm's leaves, of course! I took my snickers off, put my courage on and said: Just do it. And I did it. And ran towards the girl, but the girl turned out to be a sitting dog! Is this why I almost fell off the palm?!
