The biggest part of this pie chart takes ~~the~~ sleeping. That is very ~~impor~~ important part of our life because it affects on our work results. You should sleep a lot to be productive. Eating and studying or homework too takes very big part of the diagram. ~~Then~~ Then, ~~eating~~ without eating you can not live normally and that is why this part of our life is significant. Studying teach us a lot of things and improve some skills. Now, let's look at typical leisure time of teenager.

Doing some sports and calling or chatting ~~are~~ are so important because it improves our physical and mental abilities. All teenagers spend some time online! ~~that is~~ here they ~~at~~ can post some things and chat but ~~that~~ that is important to not being doomscrolling on oversharing person because it can provide you some troubles. Also, teenagers like playing video games. I am not against it but a lot of teenagers playing it a lot and that is not good.

In conclusion, teenagers can spend less time in videogames, but only if they play a lot and it is not just a way to relax.
