Task 3

Just when demographers are ringing a ~~bell~~ alarm bells about overpopulation, amazing founder Jeff Besos says we need to populate our solar system. Mister Besos was asked for his thoughts on humanity living in outer space in a thousand years time. He ~~replied~~ ^{replied} : "I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins ... Space would be full of live and intelligence and energy." He added that he wants to help "build heavy ^{to} infrastructure that will be used by the space entrepreneurs of future generations ... so that ingenuity and imagination can really be unfixed."

Mister Besos' thoughts are accord by fellow multi-billionaire to Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be one of those 'single-planet' species; we want to be a multi-planet species". Earlier this day, Mister Musk warned that: "population collapse due to low birth ^{rates} is a much bigger risk to civilization than global warming... ~~mark~~ ^{mark} these words." Mister Besos can ~~see~~ ^{see} of people living in giant space stations. He said most inhabitants of this would visit Earth for vacations. He envisioned our planet returning to its pristine environment, as factories would be built in space. He said they would exploit resources on the moon or on asteroids instead of using up Earth's.
