Task 7.

First of all, she ~~could give~~ might be working hard all day in the garden because she ~~must~~ ^{has to} do it. In the countryside there are lots of animals, which smell really awful. There is no Internet at all, so it's a big problem. Nowadays, it's very important to have a phone and use it every minute of your life. ~~Also the choice of different dishes is quite small.~~ That's why a friend of mine doesn't want to live in a countryside.

Task 8.

Daily Activities for Teenagers.

These days playing and using the phone is the main part of our lives. ~~Let's~~ I would like to talk about daily activities for teenagers.

First of all, sleeping is the most important thing in our daily routine so for teenagers it's

a $\frac{1}{3}$ of their ~~day~~ whole day. In the last 20 years eating became very popular among people. In the pie chart we can see that studying and eating are at the same places. That means, that the teenagers eat a lot of their time so they may be fat. If so, the sports are only 10% of all their day, ~~so~~ while texting and video games are 10% of their daily routine too. That is ridiculous! I think that in the last 10-20 years the teenagers became less interested in school and their homework. They must be eating fatty and unhealthy food. That means that they faster put on weight and, judging by this pie chart, they are doing sports not very often. *
