Task 3.

Just when demographers are ringing alarm bells about overpopulation, amazing founder Jeff Bases says: "We need to populate our soil system." Mister Bases was asked for his thoughts on humanity living in outer space in a thousand~~s~~ time. He replied: "I would love to see you now, a trillion humans living in the soil system. If we had a trillion humans, we would have at any given time 1000... and 1000... space would be full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure that will be used by the space entrepreneurs of future generations so that... can really be unleashed."

Mister Bases thought are accord by ~~me~~ fellow multi-billionaire Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be one of those single-planet species. We want to be ~~one of the human race~~ a multi-planet species." Earlier mister Musk wondered that: "population collapse you to low birth rates is a much bigger risk to several civilization, global warming... make this words". Mister Bases even conceives of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisages our planet returning to its preteen environment as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up Earth.

Task 4.

In vibrantly coasted town, Zoe, young chef with extraordinary talent, thrived. Fascinated by exotic flavors, she dedicated her life to creating innovative dishes, her skills far surpassed those of her traditional colleagues.

One brisk morning, Zoe embarked on spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fish villages. She was wandering through bustling bazaars, her senses were alighted with array of spices and fresh seafood. Her searching brought her to hidden cave at dawn, just as fishermen brought in their early catchings.

There Zoe discovered rare fish, its flavor was unlike anything she has ever tasted. This discovery was an igniting burst of creativity. Ocean's bounty was exhilarating, but there were unexpected findings that truly inspired her. Zoe's culinary adventures, blending traditional techniques with avant-garde tastes, soon became legendary, inspired others to explore and embrace diversity of flavors of the world.

The Stuarts family was pretty poor. Sometimes it was even hard for them to make the ends meet. However, they've always been craving

for going on holiday so the whole family were saving up money.

Once they've realised that they have enough money for a little trip by train. Obviously the place which they've chosen was quite boring with no exciting activities. They've booked the cheapest hotel but, anyways, the whole family (Sam, Laura and their kids: Tom, 9 and Betty, 12) were looking forward to the trip.

They got to the station and started looking for their train. But guess what happened?! They got on the wrong train! It was possible because the real passengers of this train have the same surname. When the Stuarts realised that, it was too late. They were down in the dumps. (Huh, at that time they didn't even know how lucky they were).

When the train arrived, the Stuarts realised that they ^{had} come to the luxurious resort that they've seen only in their dreams.

A special person met them and told the Stuarts everything about their following vacation (room-service, enormous hotel, many activities for the whole family). It was absolutely unbelievable for the Stuarts. At first they were confused but decided to stay anyway. They have been having the time of their lives for two weeks! It was the best 14 days in their lives. They had a lot of emotions. So that is how a misadventure turned into adventure.
