Just when Demag refers a "ringing alarm bells" about overpopulation amazing founder Jeff Bezos says, we need to populate our solar system. Mister Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins... Space would be full of life and intelligence and energy. He added that he wants to help build heavy infrastructure that will be used by the space entrepreneurs of future generations... so that imagination ~~may be~~ ^{imagination} ~~never~~ ~~can~~ really be realized.

Mister Bezos' thoughts are excused by fellow multi-billioner Elon Musk, owner of 'X' / family known

Later this year, Mister Musk wasn't doubt: 'Population collapses due to low budgets is a ~~much~~ much bigger risk to civilization than global warming... Make these ways'. Mister Bezos consists of people living in giant space stations. He said most inhabitants of these would visit those for vacation. He envisions our planet ~~being~~ returning to it's persistent environment as factories would be built in space. He said they would exploit resources on the moon or on asteroids instead of using up those.

In a vibrant coast town, Zoe, a young chef with extraordinary talent, thrives. Fascinated by exotic flavours she dedicated her life to creating innovative dishes, her skill far surpassing those of her traditionalist colleagues.

One brisk morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fish villages. She wandered through bustling bazaars, her senses alighted with the array of spices and fresh seafood. Her search brought her to hide in cove at dawn, just as fishermen bring in their early catch.

There, Zoe discovered rare fish, its flavor unlike anything she had ever tasted. This discovery ignited ~~for~~ a burst of creativity: the ocean's bounty was exhilarating, but there were unexpected finds that truly inspired her. Now, this might sound crazy, however I recently accidently flew to the most romantic city on Earth, instead of Texas. Unbelievable, huh? Well, here it goes...

It was a month before my birthday. My friends and I were at an arcade. It was normal for us to hang out there, so I didn't expect anything mind-boggling to occur. There we were, throwing basketballs in hoops, each hoping to get more points. 'Awww, man, I lost again,' ~~my~~ Arina, one of my friends, said. 'I'm so tired of the never-ending tails: first a missing purse then being locked up in my office then...' 'STOP!' - I yelled. 'You are in need of a break, you're losing your mind!' I suggested going on a trip to ~~Paris~~ Texas. 'It'll be fun! All of us together, plus, we have a great occasion - my birthday!' - I said. A month later, ~~off~~ day 'X'. We're at the

airport ready for the time of our lives. ~~on the way to the plane~~, when the ~~leader~~ ~~leader~~ leading us to it, told me ~~that~~ 'I shall wait for another worker to take me. 'Au revoir, see you in France!' - the flight attendant said. We were all puzzled.

Turned out, I had booked tickets to Paris, France instead of Paris, Texas. ~~But~~ ~~There~~ There were myriad ways how our trip could have gone wrong however, no one expected this.

All in all ~~the~~ my birthday was fantastic. France is wonderful (maybe even better than Texas). We admired the ~~the~~ stunning views and got to taste the best croissants. I guess a misadventure turned adventure!
