Task 7.

First of all, in the countryside there aren't so much activities as in the city. There aren't any places to have fun or entertain yourself. Usually, the best option is a river nearby. Whereas in the city you can do ~~anything~~ everything that you want. There are a lot of shopping centres, clubs and libraries. Last but not least, for some people surfing internet and using

gadgets are the most common ways of entertaining themselves. But sometimes there is no internet connection at all and this is one of the biggest reasons why countryside can be annoying.

~~Task 8.~~

Task 8.

Daily activities for teenagers.

Teenagers have got a big list of activities. Some of them are quite different, some of them are similar. I have to analyze this information and make some ~~hypotheses~~ hypotheses.

First ~~of all~~, of all, the diagram shows that the biggest part of activities are connected to gadgets and internet: videogames, online, texting. Nowadays using internet is the most common way of entertaining. Every teenager ~~have~~ has their own smart phone, sometimes a computer. Young people prefer videogames to reading books or playing board games because computer games can be more impressive.

Secondly, every day teenagers spend time to do sports. Probably they want to keep fit and they are trying to care about their health. They have enough time for sleeping too.

Thirdly, teenagers spend a big part of time for studying. But they have enough free time to take a break and they don't have to eat ~~fastly~~ quickly.

All things considered I can say, that teenagers take care of their health and they have enough free time. They usually spend it using internet. ~~Eating and studying~~ studying. They have

a big period of time for eating and studying too.
