I In my opinion, this poem is written for the beloved one of the poet.

The poet wants to offer "to spread the clothes on your feet", but he can only do that in dreams.

By golden and silver light and "highlight" the poet means the sun, the moon and the clouds.

I think that in the last line author says that he sees someone in his dreams.

1: c (A modern logo) Blue - trust, very traditional

2: c (Multiple colors) Red - excitement, sign of danger.

Purple - creativity, sign of death.

Multiple colors - diversity.

The multicolored logo is the right fit because multiple colors show the diversity and the bank is international.

Just when demographers are ringing alarm bells about overpopulation, Amazon founder Jeff Bezos says we need to populate our solar system. Mister Bezos was asked for his thoughts on humanity living in space in a thousand years time. He replied: "I would love to see, you know a trillion humans living in the solar system. If we had a trillion humans, we would have at any ^{given} time 1000 Mozarts and 1000 Einsteins... Space would be full of life and intelligence and energy". He added that he wants to help "build heavy infrastructure that will be used by the space ~~enterprises~~ entrepreneurs of future generations... so that in the new... imagination can really be unleashed.

Mister Bezos' thoughts are echoed by fellow multimillionaire Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be one of the single-planet species, we want to be a multi-planet species. Earlier this year, Mister Musk warned that "population collapse due to labor shortages" is a much bigger risk to civilization than global warming made worse. Mister Bezos can see of people living in giant space stations. He said most inhabitants would ~~visit the Earth~~ visit the Earth for vacations of these would visit the Earth for vacations. He ~~visions~~ ~~our planet returning to its pristine environment~~, as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up Earth's.

~~One brisk morning~~ In a vibrant coastal town, Zoe, young chef with extraordinary talents, thrived. Fascinated by exotic flavors, she dedicated her life to create innovative dishes, her skills far surpassed those of her traditionalist colleagues.

One brisk morning, Zoe embarked on spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fish villages. She wandered through bustling bazaar, her senses ~~heightened~~ were alight with array of spices and fresh seafood. Her search brought her to hidden cove at dawn, just as fishermen ~~bringing~~ were bringing in their early catch.

There, Zoe discovered a rare fish, its flavor was unlike anything she has ever tasted. This discovery has ignited the burst of creativity: ocean's bounty was exhilarating, but there were unexpected finds that truly inspired her. Zoe's culinary adventures, blending traditional techniques with avant-garde tastes, soon became legendary, inspiring others to explore and embrace diverse flavors of world.

Alaska - it was a land of Russian Empire, but because of control problems (it took half of a year to ask the capital) it was sold for a price of approximately 200k\$.

California - while being one of the most beautiful and luxurious states, it is a place where a half of American homeless people live. Also, there was a Russian outpost in this state around three hundred years ago.

Florida - because of this part of the United States's location (it stands on Mexican border), this state has a record quantity of Latin American citizens - about a half of entire population!

Missouri - this state became well known because of a man who lived there - Missouri is a motherland of marksmen. Famous writer Mark Twain, who became popular after writing his stories about Tom Sawyer's adventures.

Hawaii - due to its geographical position (this state is located on an island of volcanic structure), it is dangerous to live here, because volcanoes erupt quite often and moreover - someday the entire island may be covered in lava!

№9 A misadventure turned adventure

One day I needed to meet my friend, who ~~arrived~~ was supposed to arrive at the train station in the early morning. As it was late evening and I was bored, I made a decision to walk from my home to the station by my very feet instead of going there by the bus or somewhere. It was around 5 kilometers far, but I really didn't mind then.

On the way: As I was walking through empty and dark streets, going far away from home, the rain started, but it wasn't just an average soft couple of waterdrops - it was the most sincere, hard and cold rain I've ever seen in our city. This rain was like one of those you may experience in Vietnam or Thailand! Firstly, I thought that it is acceptable as I had the umbrella with me, but ~~it~~ there was a betrayal from it - when I pushed the button it exploded in my hands, letting the fabric fly away and leaving me with only an umbrella's handle in my possession. Two hours later, wet and disgusted by my very idea, I have finally ^{arrived} at the station just to find out that the train is going to be 4 hours late!
