Task 4

I think that there can be a lot of reasons for her to hate living in a big city. One of them is probably the number of people and because of this city cities are really noisy. Another reason is that everything ~~is~~ there is much more expensive than in usual cities and this makes living really harder, especially for adults. Talking about moving around, places like those are really big so it's living to get somewhere you need.

Task 9

1. museum

2. table

3. school

4. test or exam

5. homework

Task 8

Nowadays teenagers spend a lot of time on social networks and internet in general. In my opinion this happens mostly because of how social young people are. ^{37% of them} ~~They~~ send messages to their friends every day and if we think about it, it is good for children to communicate with each other pretty often. Some teens use Twitter instead of messengers and the reason for this is that they want to focus on themselves more, plus they want to communicate with more people at once. Same goes for Facebook. Teenagers want more attention, so they log in even more than 10 times per day to see how well their 207 friends react to ~~the~~ child's new posts. Not only teens use Facebook, but children under ten years old too. Everyone wants more socializing. In conclusion, I'd like to say that maybe using social networks is not that bad and it even helps a lot of teens to socialize nowadays.
