Task 3

Just when demographers are ringing alarm bells about over population, Amazon founder Jeff Bezos says we need to

populate our Solar system. Mr. Bezos was asked for his thoughts on humanity living in outer space in a thousand of years time. He replied: "I would love to see, you know, a trillion humans living in the outer Solar system. If we had a trillion humans, we would have at any ^{given} time 1,000 Mozarts and 1,000 Einsteins... space would be full of life and intelligence and energy." He added that he wants to help build heavy infrastructure that will be used by the space entrepreneurs of future generations... so

ingenuity and imagination can really be unleashed.

Mr. Bezos' thoughts are echoed by fellow multi-billionaire Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be a multi-planet species one of those single planet species, we want to be a multi-planet species." Earlier this year, Mr. Musk stated: "Population collapse due to low birth rates is a much bigger risk to civilization than global warming... Musk

these words." Mr. Bezos conceives of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisioned our planet returning to its pristine environment, as factories would be built in space. He said they would explore resources or exploit resources on the Moon or on asteroids instead of using up Earth's.

Task 4

In a vibrant coastal town, Lee, a young chef with an extraordinary talent, is thriving. Fascinated by exotic flavors, she has dedicated her life to create innovative dishes, her skills far surpass

those of her traditionalist colleagues. One brisk morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she was exploring local markets and remote fish with the array of spices and fresh seafood. Her search brought her to a hidden cove at dawn, just as fishermen had brought in their early catch.

There, Zoe discovered rare fish, its flavor unlike anything she had ever tasted. This discovery ignited the burst of creativity: ocean's bounty was exhilarating, but there were unexpected findings that truly inspired her. Zoe's culinary adventures, blending traditional techniques with avant-garde tastes, soon became legendary, inspiring others to explore and embrace diverse flavors of the world.

Task 9

It was not a lovely day, everything went absolutely wrong.

It was not a lovely day, the weather was awful and everything went absolutely wrong. Without waiting for my change, I jumped out of the stuffy cab and sprinted to the airport entrance, straining my luggage which seemed to ~~be~~ through the pools. My heart skipped a beat when I heard

a crack under my heel and the next moment I found myself ^{lying} on the ground with a terrible pain. I opened my eyes just to see my plane going ~~high~~ up.

Perfect! I missed my plane, I'm covered in mud and I'm not sure if I will be able to stand up.

Some man came up to me and helped me. I was extremely grateful but I'm not sure if he could tell it from my face. I was just about to get a cab home

when I decided to test my luck
and ~~sign~~ to get a refund.
I ~~gave~~ desperately argued
with the ladies at the check-in
but that was useless. After
that I turn around and hear
a strange noise. Everything
starts to fade and my
consciousness seemed to fade to.

Can you imagine how sur-
prised I was to wake up in
my bed? What a dream before
the vacation!
