If we had a trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins... Space would be full of life and intelligence and energy." He added that he wants to help "build heavy ~~machinery~~ infrastructure that will be used by the space astronauts of future."

Mr. Bezos ~~is~~ thoughts are echoed by fellow multi-billioner Elon Musk, owner of X (formally known as Twitter). Earlier this year Mr. Musk warned that "population collapse due to low birth rates is a much bigger risk to civilization than global warming... mark these words."

Mr. Bezos conceives of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. Everything was in rubble. Her pets, which she kept in class, fortunately, survived. But they needed rescue. Charlotte asked a whole school to help her. Many kids put their minds on the idea of rescuing animals. Finally, after a few days they caught everyone: Little chicks were tricked by seeds, cats came to the smell of cat food, all dogs came when Charlotte called "Buddy". Except for one dog. They couldn't find him anywhere. Everyone was scared that dog didn't survive. However, when the hope was nearly gone, granny called Charlotte to say that her dog was ^{a frog} for a couple of days, since he was swimming in a pond!
