Just when demographers are ringing ~~the~~ alarm bells about overpopulation, Amazon founder Jeff Bezos says we need to populate our ~~the~~ Solar System. Mr Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the Solar System. If we had a trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins... Space would be full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure that will be used by the space ~~enterprise~~ ~~enterprises~~ ~~enterprises~~ ~~enterprises~~ of future generations... so that ~~ingenuity~~ ingenuity and imagination can really be on lift".

Mr Bezos' thoughts are echoed by fellow multi-~~the~~ billionaire Elon Musk, owner of

Eels (formally known as Twitter). In 2021, he said of the human race: "We don't want to be one of those single-planet species; we want to be a multi-planet species." Earlier this year Mr Musk warned that: "Population collapse due to low birth rates is a much bigger risk to civilisation than global warming... mark these words." Mr Bezos conceives of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet returning to its pristine environment, as factories would be built in space. He said they exploit ~~resources~~ resources on the Moon or on asteroids instead of using up Earth's.

A Misadventure Turned Adventure

My family and I like ~~travelling~~ travelling together and the ~~initial~~ ^{essential} part of every ~~part~~ trip to a mountainous area is hiking. Of course, that journey wasn't an exception.

We set off early in the morning to be the

only people on the route. As we were going up through the forest, more ~~and more~~ ^{views} were appearing. After hours of taking photographs at ~~practically same places~~ and stopping to have some rest we finally reached our destination - the picturesque cliff. ~~famous for the narrow road located there~~

Being exhausted and too ~~worn out~~ ^{worn out} by emotions, we were supposed to ~~descend~~ ^{descend} by the shortest route and get home as soon as possible. However, reading maps isn't what we are good at. At first, everything went smoothly, but some forty minutes later I noticed that we had passed by the same tree at least twice. We realised that we had been going in circles and took the turn.

This time we got out of the forest and had to ~~follow~~ follow a path covered in mud. ~~Covered in mud and~~ Absolutely tired, we met a local who told us that ~~we~~ we had ~~gone~~ gone the wrong way and had to return back.

No matter how angry we were at ourselves, we had to go. Finally, at dawn we reached the car park. With hindsight, this misadventure turning into adventure wasn't that bad. At least, now we will ~~be more careful planning~~ ~~our~~ ~~trips~~ plan our trips more carefully.
