Task 3

Just when demographers are ringing alarm bells about overpopulation, Amazon founder Jeff Bezos says we need to populate our solar system. Mr Bezos was asked for his thoughts on humanity living in outer space in a thousand years' time. He replied: "I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins... Space would be full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure

ture that will be used by the space entrepreneurs of future generations... so that ingenuity and imagination can really be unleashed".

Mr Bezos' thoughts are... by fellow multi-billionaire Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be ~~reduced~~ to one of those single-planet species; we want to be a multi-planet species". ... Mr Musk warned that: "population collapse due to low birth rates is a much bigger risk to civilization than global warming... make these words." Mr Bezos can conceive of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet returning to pristine environment as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up Earth's.

Task 4.

In a vibrant coast town, Zoe, a young chef with an extraordinary talent, thrived. Fascinated by exotic flavors, she dedicated her life to creating innovative dishes, her skills far surpassed those of her ~~peers~~ ^{peers} colleagues - traditionalists.

One brisk morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fish villages. She wandered through bustling bazaars, her senses ~~were~~ ^{were} heightened with an array of spices and fresh seafood. Her search brought her to a hidden cove at dawn, just as fishermen ^{had} brought in their early catch.

There, Zoe discovered rare fish, its flavor was unlike anything she has ever tasted. This discovery ignited burst of creativity: ocean's bounty was exhilarating, but there were unexpected finds that truly inspired her. Zoe's culinary adventures, blended traditional techniques with avant-garde tastes, soon became legendary, inspiring others to explore and embrace diverse flavors of the world.
