8. They have finished editing this text two hours ago.
9. Can you write to your business partner a thank you note?
10. You should put on your jacket, it's cold and windy today.

Task 4.

The first reason that she could give is that she doesn't like that fact that countryside is small and she wants to live in a big city where she would have more places to go. Also she could say that she wants to study in the school that could give her more abilities and knowledge. I suggest she might say that she wants to live in a flat with a beautiful view to a city.

Task 8.

At this diagram we can see that most of the time teenagers are sleeping. So, I think it's true, but not always, because some teenagers sleep not enough because of studying or maybe playing computer games. I also disagree with the fact that teenagers eat more than spend time with phones. In our time technologies get more and more successful and most teenagers spend most of their time using phones. Some of them couldn't live without social medias or videogames. Actually someone can eat only 2 times a day because they just don't have time for lunch and dinner. Now sport isn't that popular with teenagers. I think most of them can live without any sport activity. But on the other side there are someone who really keen on sports. Maybe they dream to be a champion and spend lot of time doing sports. Well, I think other points are right. Just teenager must organise their time.

Task 9

1. Mark
2. Canteen
3. Backpack
4. Lunch
5. Study
