There has been a spate of muggings in cities across the globe as muggers are focusing on a new item to steal - luxury coats. In recent weeks, people in London, Washington, D.C. and other metropolitan areas have been robbed of their coats at knifepoint. One man in Birmingham in the UK was slashed across his face as thieves made off with his jacket. Criminals are targeting coats that cost as much as \$2,200 each as well as literally stealing the coats off people's backs, thieves are breaking into people's vehicles. Professor David Wilson, a criminologist at Birmingham City University,

warned that the muggings were the start of a new 'luxury crime trend'. He said the thefts are 'worrying'.

Professor Wilson warned those with high-end winter jackets to be careful. He said: 'I would tell anyone wearing Canada Goose-branded jackets to be careful and be aware of your surroundings and who is around you. You need to be vigilant for opportunists who might try to steal them'. He added that, 'thieves used to target Rolex watches which go for thousands of pounds and sell them online'. A London transport spokesperson said, 'Canada Goose coats are targeted for robbery. It's a real concern to us because it really impacts the safety of the young people on the network'. She added that this 'acquisitive crime' was 'very concerning, intimidating and frightening'.

Task 4.

In a verdant, age-old forest, there resided Luna, a rabbit unlike any other. Mesmerized by the night sky, she spent evenings gazing at the stars, dreaming of cosmic mysteries. Her curiosity was insatiable, greatly different from her peers, who preferred the forest's tranquil life.

One clear night, Luna embarked on an unexpected journey. Guided by constellations, she ventured beyond known paths. She leapt over streams and navigated through dense underbushes, her heart pounding with excitement. Her adventures took her to the tallest hill in the forest, just as dawn's first light crept over the horizon.

There, Luna could behold a ~~sunrise~~ sunrise of

unimaginable beauty, a kaleidoscope of colors that stirred her soul. This moment of awe brought a profound realization: stars can be mesmerizing, but her own world is equally splendid. Luna's story, a blend of celestial wonder and earthly beauty, became an enduring legend, inspiring all to appreciate the magic of both ~~for~~ distant dreams and beauties close at hand.

Well, some songs don't have more than two people singing at once. We can pass the microphones around during those. If needed, two vocalists can sing into the same microphone. And to replace songs that we did have to scrap, we decided on acapellas, which don't require microphones.

In the end, with cooperation, masterful improvisation, and help from our audio engineer, we were able to deliver a concert on par with what we had previously done in professional studios.

Task 9.

Last summer, me and the vocal ensemble I'm in were asked to perform at a town about four hundred kilometers from us. We all agreed to drive there tomorrow morning.

Trouble emerged three hours into the trip. After a large bump, something rattled in the back of our car. Where the audio equipment was. We all ~~feels~~ felt uneasy.

Our fears - not worst ones, but pretty close - were confirmed after we had arrived. All of our microphones except two somehow fell out of their cases and were no longer functional. Oh, what to do!! We all began brainstorming.
