- 9) Everybody in my family is computer literate.
- 10) I wish I could speak five languages!

Task 9

- 1) museum 2) desk 3) school 4) test 5) homework

Task 7

Some people enjoy living in big cities but others tend to leave them as soon as possible. Firstly, air pollution is one of the main reasons. Factories and cars spoil the air. It causes numerous health problems and illnesses. Secondly, rents in large cities are much more expensive than in small towns. People can face some difficulties with renting a house. Thirdly, it's very time-consuming to get somewhere: traffic jams are really common in big cities.

Task 8

Nowadays social media takes an important part in people's lives, especially for teenagers. Due to the diagram 73% of teens are on social networks. 37% of them send messages every day. For teens social networks are a way to keep in touch with friends.

Unfortunately, the tendency is that live communication among teenagers have dramatically reduced. They spend most of the time online. Now ~~only~~ 8% of American teens use Twitter but soon this number will ~~increase~~ be increased. There's no more need in face to face conversations when the average teen has 201 Facebook friends online. About 20% of them log on Facebook over 10 times per day to chat with their mates.

But there's one more problem that's worth mentioning: 25% of Facebook users are under the age of 10. I consider children shouldn't be allowed to use social networks as they're not mature enough to face online bullying.

In my opinion, social media has its disadvantages but ^{teens} ~~we~~ should use it wisely to experience all the ~~pros~~ advantages it provides.
