Task 3.

Just when demographers are ~~ring~~ ringing alarm bells about our population, amazing founder & Jeff Bezos says we need to populate our solar system. Mister (Mr.) Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1,000 Mozarts and 1,000 Einsteins... Space would be full of life and intelligence and energy." He added that he ^{wants} ~~wants~~ to help "build heavy infrastructure that will be used by the space entrepreneurs of future generations... so that ingenious imagination can really be on lift".

Mister (Mr.) Bezos's thoughts are ~~by~~ by fellow multi-billioner Elon Musk, owner of ~~the~~ X (family name as Twitter). In 2021, he said of the human rise: "We don't want to be won of those single-planet species; we want to be a multi-planet species". Early ~~that~~, Mister (Mr.) Musk would ~~that~~ that: "Population collapse due to low rates is a much bigger risk to civilization ^{than} ~~that~~ global warming... Mark these words." Mister (Mr.) Bezos conceives of people living in giant space stations, space stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet returning to its prestone — environments environment, as factories would be built in space. He said they would expulate resources on the Moon or ~~on~~ ^{on} asteroids instead of using up Earth's.

Task 4.
