Task 7.

Personally, I believe that she could give such reasons as:

1. Small amount of people. In the countryside, you can't really make any new friends.

2. Small range of opportunities.

Usually, you are not able to get proper education and work there.

3. Isolation. There's bad Internet connection sometimes, also it takes quite a long time to get somewhere.

4. Stereotypes in society. You may face the problem of not being taken seriously.

Task 8.

The diagram shows us a list of daily activities for teenagers. In my opinion, such changes happened because of the progress in IT sphere.

Here's why:

... Technology connected activities are a big part of the diagram. Teens communicate with each other, read articles and blogs and so on.

Technology has become a huge part of our lives over the past years so it's only natural that such changes affect teenagers' daily routine too.

On the other hand, such a

drastic change can lead to developing an online addiction among teenagers, destroying healthy activities. Teens should participate in social life for saving their communication skills.

That's why I believe that all of these changes are caused by the recent innovations. It's perfectly fine, but we should remember about the real world.
