Task 8.

What teenagers do during their day is an interesting topic for adults. We will analyze a pie chart provided on the topic of that.

The most popular answer is sleeping. In my opinion, the reason for ~~this~~ is that teenagers spend a lot of time at school nowadays because of how much they study.

The most popular answer after sleeping is eating. From my point of view, teenagers spend a lot of time eating because at their age body is growing a lot. So they need plenty of energy.

The least popular answers are sports, online, videogames, and texting. I suppose that all of these are activities they do during their leisure time, so it does not take so much time.

To sum up, nowadays studying has a big influence on the lives of teenagers. They spend a lot of time doing it. This is the reason why there is not so much time left for leisure activities.
