"I hate living in a big city" is a very "wide-spread opinion nowadays. And here are a few reasons why.

Firstly, some people simply do not appreciate the hustle and bustle in big cities. Additionally, there could be a large number of ~~people~~ inhabitants, which might disturb some individuals. And finally, homeless people and rubbish are also the reasons of someone's dislike of this type of places to live in.

All in all, there are many drawbacks of living in a ~~large~~ city.

Task 58.

There has been a research conducted. It is based on Teen Social networking stats. There ~~are~~ are few interesting pieces of information in this pie chart.

73% of teens are ~~active~~ on social media today. The number of youth spending their time on social networks is huge. Certainly, it is due to its addictive software and display. Besides, 22% of the young Facebook users log on to Facebook over 10 times a day. This demonstrates that teens use ~~the~~ social media, ~~called Facebook~~, plenty of times ~~in~~ a day. I ~~can make an~~ ^{support} ~~assumption~~ that they do that either as already a habit or as an ~~way of~~ ^{entertainment}. Lastly, ~~the~~ 25% of users on Facebook are under the age of 10. ~~Children nowadays~~ It seems like children, ~~nowadays~~, also use social networks. Arguably, following the suit of youngsters. And just having a blast, watching fun videos.

All things considered, social networks are becoming more and more addictive. So, we have to tackle this issue. Probably, by implementing some lessons at school or making a limit for the ~~usage~~ ^{use} of social media. ~~It will help people save a lot of time.~~
