Task 7

My friend would say it because big city is more polluted than a village. Also usually, we don't have any places to swim. In the village they have clean air, beautiful views. In big cities always very crowded streets and for example for introverts it will be extremely hard to live in the city. Many people from towns think that people, who live in Megapolises are more aggressive, annoyed and bored.

Task 8

In this essay I want to analyze the diagram. In our time social medias are very important in teenagers' life.

As we can see, 73% of teens are on social networks, it's a big number. In social medias teens communicate with their friends. We can see it by 37% of teens, who send messages. Others can post photos or just scrolling photos ^{from} other people. Also I think that being a user of internet before ten years is bad, because in this age people can't understand all dangerousity that can be in the internet, for example - maniacs. Even adults must pay attention on it. Teens have to understand that Facebook friends aren't real friends, they're only likes. Real friends always can help you and stay with you.

It's a choice of every person, but I'll advise not waste your time in social medias, but spend it with real friends.
