Task 3

Just when demographers are ringing alarm bells about our population, amazing founder Jeff Basis says: We need to ~~perpetuate~~ ~~pop~~ populate our Solar system. Mister Basis was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the Solar system. If we had a trillion

humans, ~~living in~~ we would have at any given time 1000 Mozarts and 1000 Einsteins... space would be ~~used by the~~ full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure that will be used by the space entrepreneurs of future generations... so that ingenious and imagination can really be unleashed"

Mister Basis thoughts are echoed by fellow multi-billionaire Elon Musk, owner of X (formerly known as Twitter). In 2021 he said of the human race: "We don't want to be one of those single-planet species; we want to be a multi-planet species." Earlier this year, mister Musk warned that "population collapse due to low birth rates" is a much bigger risk to civilization than global warming... mark these words! Mister Basis conceives of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet returning to its pristine environment, as factories would be built in space. He said they would exploit resources on the moon or on asteroids instead of using up Earth's.

Task 4.

In a vibrant coast town, Zoe, a young chef with an extraordinary talent, thrived. Fascinated by exotic flavors she dedicated her life to creating innovative dishes, her skills

Delaware is a small state located in the eastern part of the United States of America. The name that is often used while talking about this region is a "Blue Hen State".

Alaska is the 51-st state, also called "the North warrior". It was sold to USA by a Russian emperor Alexander the II. It is not connected to the main USA territory and is 4 kilometres far from Russia.

California is the most populous state, where many tourist attractions and cities, for example, Los Angeles, are located. The "Eagles" band has a song "Hotel California" that describes the reality of such places.

Task 9

Once upon a time in ~~Ramenskoye~~ there was a mouse ~~named~~ Larisa. Larisa was a smart mouse, she could think and talk to people. Her best friend Sasha, a human boy, taught her that. Don't ask me, how it is possible, I won't tell you.

One morning Larisa was exploring her friend's room. She has been doing it for two months already. She started to climb a big mantain, put a lot of effort to cope with the surface. "I've nearly reached the top!" she thought. Little did she know, that in the next few seconds she would experience a full range of emotions: fear, shock

anger. ~~Five~~ She fell down and everything turned black. Larisa was sure she has died and ~~hasn't opened her eyes for two minutes~~. Then the mouse tried to move and guess what? She was totally okay. "I need to find my way out of here" - she said to herself. Her adventure was long. Searching for anything she could reach in the darkness was a big challenge for a tiny mouse. Finally, she saw a light that was ~~coming~~ above her head. "God, have I died and reached heaven? Do I see a light at the end of a tunnel? That's why nothing hurts! ~~I'm dead!~~" - Larisa screamed. "No, you have just fallen in my bagpack and landed on a soft pencil case, silly" - said Sasha's voice, that has appeared from nowhere.
