Task 7

I can agree ~~the~~ with this friend because I also live in a big city. Of course, the city has advantages such as entertainments and easy access to everything you need. But unfortunately, there also several big disadvantages. Firstly, the environment there ruins peoples' health because of air pollution and trash. Secondly, cars or neighbours around you always make too much noises, so you can't relax or focus on necessary things. Thirdly, you ~~will be always~~ always will be surrounded by ~~crowds of people~~ other people.

Task 8

In last years gadgets became very important part of modern life for lots of teenagers. They use it daily in different ways with different goals.

Looking on the results of the diagram, we can see that lots of teenagers use social networks. Some of them are quite young, around 10 and less years old. That means social networks contain topics for every tastes. The app which is used by many teenagers is the Face book. People log on it over 10 times per day and prefer it for personal goals. Usually teenagers use networks for communication. I think ~~the reason of that is~~ it is like that because people can't see each other, so it make attitude to relationships in the Internet more easy-going.

To conclude, I do agree with the statement that modern teenagers might be obsessed with apps because of easy access to happiness. Also modern teens use networks because of the need to make friends in the real life.

Task 9
