8. If I have to finish revising our report, I won't be able to attend the conference tomorrow.

Task 6 - продолжение

9. Everybody in my family is computer literate
10. I wish I could speak five languages!

Task 9

1. museum / gallery
2. desk / table
3. school
4. test / exam
5. homework

Task 7

Living in a big city has some disadvantages.

Firstly, there are traffic jams, crowds, a lot of noise in the cities. Secondly, people often feel nervous there. Moreover, their health become worse due to air pollution, unhealthy food and stresses. Thirdly, it is hard to find a place, for example, a forest or a park, to relax and walk.

All these reasons are important for people. So a lot of them do not like living in a big city.

Task 8

Teenagers nowadays depend on their computers and smart phones. In this essay I am going to analyze a pie chart showing Teens Social Networking Stats.

According to the ^{presented} diagram, 73% of teenagers are on social networks, 37% of them send messages to friends every day. And average teenager has 201 Facebook friends. Facebook is ~~very~~ popular: 22% of teenagers log on it over 10 times a per day and 25% of Facebook users are under the age of 10. Twitter is less popular: only 8% of American teenagers use it.

I think, social networks are popular around young people due to interesting content. Also they can be useful, for instance, to chat with

friends. That is why teenagers have such a big amount of Face book friends. I suppose, Twitter is not convinient for them, so it is less popular than Face book.

Diagram shows that teenagers spend less time offline. So adults should help them manage their time and talk ~~about~~ how devices influence on health.

Finally, social networks are very important for teenagers. And adults should consider it to have good relationships with them.
