Task 3.

Just when demographers are ringing alarm bells about overpopulation, Amazon founder Jeff Bezos says we need to populate our solar system. Mr. Bezos was asked about his thoughts on humanity living in outer space in a thousand years time. He replied:

"I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1,000 Mozarts and 1,000 Einsteins... Space would be full of life and intelligence and energy." He wants to help "build heavy infrastructure that will be used by the space entrepreneurs of future generations... So that ingenuity and imagination can really be unleashed."

Mr. Bezos' thought are echoed by fellow multi-billionaire Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be one of these single-planet species, we want to be a multi-planet species." Mr. Musk added: "Population collapse due to low birth rates is a much bigger risk to civilization than global warming." Mark these words. Mr. Bezos conceives of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet returning to its presteen environment, as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up Earth.

Task 4.

In a vibrant coastal town, Zoe, a young chef with extraordinary talent, thrived. Fascinated by exotic flavors, she dedicated her life to creating innovative dishes, her skills furtherly surpassed those of her traditionalistic colleagues.

One brisk morning, Zoe embarked on a spontaneous quest search for culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fishing villages. She wandered through bustling bazars, her senses were alighted with an array of spices and fresh seafood. Her search brought her to a hidden cove at the dawn, just when fishermen were bringing in their early catch. There, Zoe discovered a rare fish, its flavor was unlike anything she had ever tasted. That discovery ignited a burst of creativity: ocean's bounties were exhilarating, but there were unexpected finds that truly inspired her. Zoe's culinary adventures, blending traditional techniques with avant-garde tastes, soon became legendary, inspiring others to explore and embrace diverse flavors of world.

Task 8.

Florida.

The name of the state means "flourishing".
However, its people aren't famous for anything
associated with flowers. In fact, words "Florida man"

often appear in the titles of the most absurd news ever.

Kentucky
Kentucky is a hometown for one of the world's biggest fast food companies. Its title contains the name of the state itself and the one of their best-selling dish, fried chicken.

Alaska
The state's territory used to belong to Russia. However, the emperor didn't see any sense in it, so he sold it to America. The cost was hilariously low for a whole state.

Maine
The state's name is a part of the name given to a really popular breed of cats - maine-coon. These cats are known for their giant size, compared to other cats and even some dogs.
