A) 1. establishing

2. similarities

3. Childhood

B) 4. Knowledge

5. Society

6. ~~independence~~ independence

№8

The given pie chart illustrates activities, which teenagers are keen on doing on their everyday ~~basic~~^{occasional} basis. Overall, it can be clearly seen that teenagers spend almost a half of their day doing natural activities, such as sleeping and eating.

Looking at the chart in ~~minute~~^{more} detail, it can be ~~distinctly~~^{distinctly} noticed that teens spend 30% of their time on activities connected with phone usage. ~~From my point of view,~~ Spending so much ~~of their~~ time on such activities can have a negative impact on teenagers' brain ~~or mood~~. Therefore, the total amount of time in ~~front~~ of the screen should be decreased. ~~Partly~~ They are sports and ~~even more~~ homework, that teenagers should pay more attention to. On homework and sports teens spend 15% and 10% of their time, respectively. However, they are the ~~ones~~ that develop mental and physical skills. ~~then most~~ ^{ones}

To conclude, it is worth saying that ~~teenagers~~^{teenagers} need to develop their personalities and homework or sports are to help them, while the amount of time spent ~~at~~ in front of the screen should be decreased.
