Task 3.

Just when demographers are ringing alarm bells about overpopulation, Amazon founder Jeff Bezos says we need to populate our solar system. After Mr. Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the solar system. If we had trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins... space would be full of life and intelligence and energy." he added that he wants to help "build heavy infrastructure that will ~~help~~ be used by space entrepreneurs of future generations... so that ingenious imagination can really be ~~unleashed~~ unleashed".

Mr. Bezos's thoughts are echoed by fellow multi-billionaire Elon Musk, owner of X (formerly known as twitter). In 2021, he said of the human race: "we don't want to be one of those single-planet species, we want to be a multi-planet species." Mr. Musk said that: "population collapse due to low birth rates is a much bigger risk to civilisation than global warming... mark these words". Mr. Bezos continues of

people living in giant ~~spaces~~ space stations. He said that most inhabitants of these would visit Earth for vacations. He envisioned our planet returning to its pristine environment, as factories would be built in space. He said ~~that~~ ^{they} would exploit resources on the moon or on asteroids instead of using up Earth.

Task 4.

In a vibrant coast town, Zoe, a young chef with an extraordinary talent, thrived. Fascinated by exotic flavours, she dedicated her life to creating innovative dishes, her skills far surpassed those of her traditionalistic colleagues.

One brisk morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fishing villages. She wandered through bustling bazaars, her senses alight with an array of spices and fresh seafood. Her search brought her to a hidden cove at dawn, just as fishermen brought in their early catch.

There, Zoe discovered a rare fish, its flavour was unlike anything she had ever tasted. This discovery ignited a burst of creativity: ocean's bounty was exhilarating, but there were unexpected finds that truly inspired her. Zoe's culinary adventures, blending traditional techniques with avant-garde tastes, soon became legendary, inspiring others to explore and embrace diverse flavours of the world.

Task 9. "A Misadventure Turned Adventure"

A little boy named Tom woke up from his nap. His mother called him to ^{come} go downstairs and eat his breakfast. As Tom was eating his usual pancakes and drinking green tea, his mother told him that she needs him to go to his grandmother's house that was just across the river. Tom's mum asked him to help granny in her garden. After he finished eating, he grabbed his favourite tool bag and some gardening tools. Tom ran out of the house and headed towards the bridge to cross the river.

The bridge was made out of wood and looked pretty solid, ~~but~~ so Tom confidently stepped on it. Little did he know, the bridge was old and was barely standing. The boy fell into the water and almost got carried away by the water, but he was quick enough to grab a branch of a tree that was nearby. The branch wasn't strong enough and Tom fell back into the river. Tom crawled back to the ground but the bridge was ruined, so he decided to take a long route and go around the river. He wandered through a forest, climbed a hill and finally reached his grandmother's house. ~~She~~ The woman greeted him with a huge smile. Tom told her that he came to help. She laughed: "Where are your tools, kiddo?" The boy ~~reached~~ ~~his shoulder~~ said that he has them only to discover that everything was missing.
