If we had a trillion humans, we would have at any given time 1,000 Mozarts and 1,000 Einsteins... Space would be full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure that will be used by the space entrepreneurs of future generations... Mr. Bezos' thoughts echoed by fellow multi-billionaire Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be one of those 'single-planet' species; we want to be a 'multi-planet' species." Earlier this year

So, that day, after leaving in a hurry to get to school on time, I checked my pockets. And I didn't find my phone. My phone had all the directions necessary to get back to our apartment. But I didn't go back to get it, after all, I wasn't alone, my roommates could help me.

Unfortunately, I separated from two of my roommates at school and... the third one also had her own plans. So it was only me with only my limited memory of the trail we walked here by. You could say I was lost, I'd prefer to call it an adventure.

Thankfully, I managed to find the correct building... on my second guess, and my apartment with no problem! Hopefully it won't happen again.
