Task 4.

In a vibrant coastal town, Zoe, a young chef with extraordinary talent, thrives. Fascinated by exotic flavors, she dedicated her life to creating innovative dishes, her skills far surpassing those of her traditionalist colleagues.

One bright morning, Zoe embarked on a spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remote fish villages. She wandered through bustling bazaars, her senses alight with an array of spices and fresh seafood.

Her search brought her to a hidden cove at dawn, just as the fishermen were brining in their early catch.

There, Zoe discovered a rare fish, its flavor unlike anything she has ever tasted. This discovery ignited a burst of creativity: ocean's bounty is exhilarating, but there were unexpected finds that truly inspired her. Zoe's culinary adventures, the blending of traditional techniques with avant-garde tastes, soon became legendary, inspiring others to explore and embrace the diverse flavors of the world.

Task 8:

№1. Hawaii is often regarded as the happiest state in all of America, and looking at it's geography it is evident why it is so. This state is a collection of islands in the Atlantic ocean and it's always sunny there.

№2. Florida is known for having quite interesting residents. You can ~~never~~ always hear on the news that "Florida man did this" or "Florida man

did that. And although these stories sound absurd and untrue, they are true.

№3 Kentucky is famously known for ^{its} fried chicken. That's why the restaurant chain "KFC" is called that, as it was founded in Kentucky. The key to the chicken's deliciousness is herbs and spices.

№4 Arizona is known for its extreme heat. Some people living there tried to cook an egg just by using the heat and they almost succeeded. Due to extreme weather conditions a lot of the state is a desert.

№5 California is known as a state where it is always sunny. Driving through the state you can see palm trees lining the roads. The people living there seem to always have a great time.

One upon a time there was a squirrel named Bell. She loved collecting nuts and bringing them back to her home, which was in a tree hole, and eating them there. One day, just as usual as the last one, she went out to collect nuts. Again you may think that it's hard or even impossible to ~~balance~~ climb the trees and hold the nuts at the same time, but Bell ~~wasn't~~ ~~wasn't~~ holds her nuts in her mouth. After a ~~while~~ while she decided that these nuts will do and hurried back to her home. But when she returned she made a shocking discovery: all of the nuts that she ~~left~~ ~~was~~ ~~stashed~~ ~~in~~ ~~her~~ ~~house~~ were gone! Furious, she decided to find out who did it. ~~By the way~~ ~~no~~ noticed that there was far near where the

nuts were. It was another squirrel's fur and she knew ~~in~~ who it belonged to - Bello! Without hesitation she rushed to Bello's home. But when she arrived she saw that Bello's wife ~~was~~ had ~~been~~ passed away and Bello was raising their children alone. She took pity on him and offered to help raise the children. Bello agreed and they lived ~~for~~ happily ever after.

Task 3.

Just when ~~dimo~~ ~~gratars~~ are ringing alarm bells about our population, Amazon Founder Jeff Bezos says we need to populate our solar system. Mr. Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see just now, a trillion humans living in the solar system. If we had a ~~that~~ trillion humans, we would have ~~and~~ 1000 astronauts. Space would be full of life and intelligence and energy." He added that he wants to help build heavy infrastructure that will be used by the space ~~and~~ ~~interpretations~~ ~~of~~ future generations, so that... Mr. Bezos' thoughts are echoed by fellow multi-billioner ~~and~~ Elon Musk, owner of X (formerly known as Twitter). In 2021 he said of the human rights, we don't want to be one of those single planet species, we want to be a multi-planet species... Mr. Musk ~~that~~ "population" global warming.
