Just when demographers are ringing alarm bells about overpopulation, Amazon founder Jeff Bezos says we need to populate our Solar system. Mister Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see you know, a trillion humans living in the Solar system. If we had a trillion humans we would have at any given time 1000 Mozars and 1000 Einsteins. Space would be full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure that would be used by the space entrepreneurs of future generations... So that ingenious imagination can really be ~~unleashed~~ unleashed.

Mister Bezos's thoughts are echoed by fellow multi-billioner Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human ^{race} ~~raise~~: "We don't want to be one

of those single-planet species; we want to be a multi-planet species." Earlier this year Mister Musk warned that: "Population collapse due to birth rates is a much bigger risk to civilization than global warming... Mark these words." Mister Bezos conceives of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet returning to its pretern environment as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of using up Earth's.

In a vibrant coast town, Zoe, a young chef with an extraordinary talent thrived. Fascinated by exotic flavors she dedicated her life to creating innovative dishes, her skills far surpassed those of her traditionalistic colleagues.

One brisk morning Zoe embarked on spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she was exploring local markets and remote fish villages. She was wandering through bustling bazaars, her senses were alighted with an array of spices and fresh seafood. Her searching brought her to a hidden cove at dawn, just as fishermen brought in their early catch.

There Zoe discovered a rare fish, its flavor was unlike anything she had ever tasted. This discovery ignited a burst of creativity: the ocean's bounty was exhilarating but there were unexpected finds that truly inspired her. She looked around and realized something was wrong. "But everything in the airport is written in another language. Is it some kind of prank?" she asked. "Where are you, Kate?" said her friends. "Let me see... The international Austrian airport. Can you pick me up?" Kate answered. "Girl, we live in Australia." they laughed. "What?! What do I do now then?" She sounded ~~very~~ disappointed.
