Also, 37% of them send messages to friends every day. It can be supposed that the main reason ~~for this statistic~~ ~~is~~ is that it is the most common way of communication today. A quarter of Facebook users are under the age of 10. ~~I find it quite surprising, that~~ Nowadays kids get older so ~~fast~~ quickly that it is ~~not~~ clear that many of them use social networks ~~as~~ even if they are so young.
