Just when demographers are ringing alarm bells about overpopulation, Amazon founder Jeff Bezos says we need to populate our solar system. Mister Bezos was asked for his thoughts on humanity living in outer space in a thousand years time. He replied, "I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1000 Mozarts and 1000 Einsteins... space would be full of life and intelligence and energy." He added that he wants to help "build heavy infrastructure that will be just by the space entrepreneurs of future generations... so that ingenerationed imagination can really be unleashed. Mister Bezos' thoughts are echoed by fellow multi-billioner Elon Musk, owner of X (formally known as

Twitter). In 2021 he said of the human race: "We don't want to be one of those single-planet species; we want to be a multi-planet species." Earlier this year, mister Musk warned that a population collapse due to low birth rates is a much bigger risk to civilization than global warming... ~~mark~~ mark these words." Mister Bezos conserves of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He invisions our planet returning to its pristine environment, as factories would be built in space. He said they would exploit resorces on the moon or on asteroids instead of wing up Earth's.

Task 4!

In a vibrant ~~sea~~ coastal town, Zoe, a young chef with extraordinary talent, thrives. Fascinated by exotic flavors, she dedicated her life to creating innovative dishes, her skills far surpass those of her traditional colleagues. One brisk morning, Zoe embarked on a spontaneous quest for a culinary inspiration. Driven by her passion for unique ingredients, she explored local markets and remoted fish villages. She wandered through bustling bazaars, her senses alighted with array of spices and fresh seafood. Her search brought her to a hidden cove at dawn, just as fishermen brought in their early catch.

There, Zoe discovered a rare fish, its flavor was unlike anything she had ever tasted. This discovery ignited a burst of creativity: ocean's bounty was exhilarating, but there were unexpected finds that truly inspired her. Task 3:

John and Nick woke up from a nap when the bus driver said to get out of the transport. Two men were going on the show called "Tropical adventures".

- Oh, finally we're here! - John said happily.

- Yeah, let's explore the area - Nick responded.

Two men were getting further and further into the woods. Suddenly they heard a roar.

- Oh no! The show had already started! Run!

John and Nick ran towards the roar. They finally stopped when they saw a huge striped tiger, roaming in the woods.

- Oh, the costume is so realistic! It's giving me chills! - Nick said with excitement.

- Yeah, right, let's watch it.

The two men sat on the grass and watched the actor climbing ~~on~~ on the trees, roaring and trying to catch the birds. They were absolutely astonished by the ~~professionalism~~ professionalism of that man.

After the show they got back to the bus, came to the driver and told him how much they liked

the show. The driver ~~looked~~ looked at them and asked: "What are you talking about? We need to drive one more hour to see the show". And that was the moment when the men realised, that they saw a real tiger.
