Task 7.

There are several reasons to hate living in the countryside. First and foremost, it's hard to reach destinations due to problems with public transport. Also, there are ^{not a lot} ~~less~~ peers to ~~make connectio~~ in rural districts to make connections with. As a matter of fact, level of education is lower than in cities. You not always can immerse into rare kind of hobby. Simply, ~~there is~~ where can appear no appropriate club or teacher in the countryside. Regretfully, finding a job can be challenging.

Task 8

Let's look at the presented diagram. It introduces you to a range of daily activities for teenagers. What do we see? First and foremost, the most popular ~~with~~ activity with teenagers is sleeping. It's universally acknowledged that skipping this part of daily routine is harmful and unhealthy. Studying/homework takes the second place (15%). I guess this number is volatile as depending on each and every student schedule and priorities. On the same place is eating. Teenagers are more and more ~~are~~ getting used to eat in haste, so the percent will decline. However, videogames are surprisingly appeared to be on the third place. In my opinion, there is a trend of ~~going up~~ increasing of time spent on this kind of activity. In ^{the} near future, the same tendation can be observed in time spent

online in general. Moreover, teenagers ~~or~~ would rather look for new buddies on the Internet, so that texting level ~~is~~ ^{is going to} ~~supposedly~~ skyrocket soon.
~~Sports activities are significant for staying healthy.~~
~~However, the older you get, the less you do sports.~~
Teenagers should keep doing sports (10%)
