Task 3

Just when demographers are ringing alarm bells about our population, Amazon founder Jeff Bezos says: We need to populate our solar system. Mr. Bezos was asked for his (though) thoughts on humanity living in the outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1000 mothers and 1000 einsteins... space would be full of life and intelligence and energy." He added that he wants to help build heavy infrastructure that will be used by the space of future generations... so that mankind really be (un)k) unleashed.

Mr. Bezos thoughts are asked by fellow multi-billioner Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be one of those 'single-planet' species, we want to be a 'multi-planet' species." Earlier this year Mr. Musk wandered: "population collapse due to low birth rates is a much bigger risk to civilization than global warming... mark these words." Mr. Bezos conceives of people living in giant spaceships stations. He said most inhabitants of these would visit Earth for vacations. He envisions our planet returning to its pristine environment, as factories would be built in space. He said they would exploit resources on the moon or on asteroids instead of jazzing up the Earth.

Task 4

In a vibrant coast town, Zoe, a young chef with an extraordinary talent, thrives. Fascinated by exotic flavors, she dedicated her life to create innovative dishes, her skills far surpassed those of her traditionalist colleagues.

One brisk morning, Zoe embarked on spontaneous quest for culinary inspiration. Driven by her passion for unique ingredients, she was exploring local markets and remote fish villages. Her search brought her to hidden cove at dawn, just as fishermen

have brought in their early catches

There, Zoe has discovered a rare fish, its flavor unlike anything she has ever tasted. This discovery has ignited burst of creativity: ocean's bounty was exhilarating but there were unexpected finds that truly inspired her. Zoe's culinary adventures, blended traditional techniques with an avant-garde tastes, soon ^{has} become legendary, inspired others to explore and embrace diverse flavors of the world.

Task 8.

1) Georgia has a city named Athens, just like the city in Greece. Georgia also has a huge "beach for poor" for those who can't afford Florida. Also, Atlanta, the biggest city in Georgia, has the busiest airports in the world. For example, it'd be less cheaper to fly from Istanbul to Atlanta and then from Atlanta to NYC on bus than from Istanbul to NYC on straight race.

2) Mississippi is the most segregated states in the US. It's a strongly conservative state with ~~(black p)~~ a huge amount of black people and white people living apart from each other. The State is called by the ~~(river)~~ Mississippi River.

3) Montana is the least populated state in the US. The population is approximately 500 000 people but it is also one of the biggest state in the United States. Montana has a very beautiful nature which ^{eventually} ~~wasn't~~ damaged by people.

4) Florida is one of the most interesting states. The state has a Disneyland in the city of Orlando. On the north of the Florida there's Jacksonville city - the most conservative city with a population over 1 million in the US. On the South there's a city Tampa city, which often being called as "chop Miami". Near the Tampa there's Saint Petersburg which is called as the city in Russia.

5) Michigan is the only state which is divided by two parts - upper peninsula and the south. Upper peninsula is pretty rural, the population of the north is approximately 200 000. In the south, there's a city named Detroit, which ~~was~~ completely destroyed when Michigan had a huge crisis but right now Detroit is growing and developing pretty fast.

Task 9.

We were going on vacation to Paris. My sister told us that she found a super cheap and beautiful house in Paris so we trusted her and she booked the house on two weeks, we bought tickets to Paris and voila, we're in the airport. My sister ordered a taxi to the address which was given to her. Me and my mom were wondering why it was taking so long to drive us to home. And after two hours of driving we finally arrived. Arrived to the middle of nowhere. It wasn't even a village. It was a huge house in the middle of nowhere but grass and trees. So the thing is, my sister is dyslexic and she thought that on the description was "we're offering you a house back from a noisy Paris right at the forest". And she literally read that as "we're offering you a house right back a noisy Paris and from the forest". And she miscalculated a price so we had no money to book a hotel in Paris. So we could see the Eiffel Tower and see Mona Lisa, but instead we were on the house with a huge farm with pigs. So my muslim family had to feed pigs, wash them and take out their garbage. Ironical, isn't it? But it wasn't that bad, it was really interesting on the farm. I was riding a pig which my mom completely disliked at all. We even went on a forest nearby and picked some mushrooms for food, made a picnic in forest and enjoyed the nature. I suppose it was definitely worth it. But my mom is still mad at my sister. That's all.
