9. Can you write a thank-you note to your business ~~party~~ partner

10. You should put on your jacket, it's cold and windy today.

Task 7.

I live in the countryside and I hate it. There are several reasons for that. For example: in winter, I have to clear snow all by myself. Also, it takes me really long to get to school and to the sports hall. The next problem is that many people suppose, that I'm a stupid villager but I'm not. I'd love to live in the city, next to my friends and next to school.

Task 8.

~~The~~ Nowadays, there are many analyses and tests, especially on teenagers, so as there are many new products and things, which can affect on teenagers.

For example, invention of smartphones and computers. Together, these things take 30% of the whole time. That is equal to the time of sleep.

Because of the wish to procrastinate, teenagers now spend 2 times less ~~for~~ for studying and doing homework and 3 times less for sport. Because of that, older generation can't be proud of the young people and that is the worst.

I think, that the time spent on gadgets must be reduced to about 5%. And

teenagers should spend more time on self-education.

In conclusion, I can say, that the problem issues of today's children are obvious. Now it's time to understand how to fix them to grow up a healthy and clever minded generation.
