Just when demographers are ringing alarm bells about our population, amazing founder Jeff Bezaz says we need to populate our solar system. Mister Bezaz was asked for his thoughts on humanity living in outer space in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the solar system. If we had a trillion humans, we would have at any given time 1,000 Shakespeares and Mozarts and Einsteins... Space

would be full of life and intelligence and energy. " He added that he wants to help "build heavy infrastructure that will be used by the space antroprenese of future generations... so that indaganuatians and imagination can really be unlitt".

Mister Bezaz thoughts are @ccured by fellow multi-billiener Elon Musk, owner of X (formally known as Twitter). In 2021, he said of human raise: " we don't want to be one of those single-planet spieces; we want to be a multi-planet spieces." Earlier this year, mister Musk warned that: "population collapse due to low birth rates is a much bigger risk to civilization than global warming... Mark these words." Mister Bezaz can see of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He invasions our planet returning to its pristine environment, as ~~factorize~~ ~~factortys~~ ~~wo~~ factories would be built in space.
