3 - school

4 - exam

5 - ~~homework~~ homework

Task 5:

1 - talking

2 - complained

3 - observation

4 - talk

5 - length

6 - puzzled

Task 7.

I think she could give several reasons of why she hates living in a big city.

At first, life in huge cities is very fast and intense.

Secondly, the ecology is not good there, because of vehicle engines and factories.

Lastly, it is very loud and noisy in a big city.

In conclusion, she can say that she doesn't like living in a big city, because she has different temp of life.

Task 8.

To start, I'd like to say about the biggest part of a pie chart. It says that 43% of teens are on social networks. It is not surprising, because in our time, everyone has its own smartphone, which he or she uses every day. We can see it on the pie chart, that 22% of teenagers log on to Facebook over 10 times per day.

Of course, smartphones made our communication much easier, and teens are people, who need to communicate a lot. The pie chart provides that 34% send messages every day and the average teen has 201 Facebook friends.

Possible reason For that a lot of teens

plenty
today spend a ~~lot~~ of time on social
networks is that they made meeting
friends easier. you can send ~~a~~ a
message to your friend and it will
arrive at the same moment, you don't
have to go somewhere, to talk with
your friends.
