8. If I have to finish revising our report, I won't be able to attend

the conference tomorrow.

9. ~~Somebody~~ Somebody in my family is computer literate.

10. I wish I could speak five languages!

Task 7.

Why does my friend hate living in a big city?

A friend of mine once said to me 'I hate living in a big city'. In this short article I'd like to give two reasons why.

The first reason is that maybe noise is not her cup of tea because there are lots of things that creat it (cars, etc.).

Obviously, the second reason is health. As far as I remember, it's quite difficult to stay healthy in a big city because of the bad ecology.

Task 08

How teen social
networking ~~etc~~
can help pupils
to study well at
school

Recently, we received a diagram of teen social networking stats. In this essay I will: analyze it, present my hypotheses how it can help for teenagers' school daily activities and discuss possible reasons for these changes.

Firstly, I would like to see the presented diagram. 73 per cent of teens are on social networks and 34 per cent send messages to friends every day. It says about that it can be a good idea to append smartphones, laptops to school education. If we do it, the main social network will be Facebook because as the diagram shows, it is a very common thing for connecting.

From all things I have already written before, I can finally create my hypotheses: social networking will rescue our education. It will:

1. Improve our knowledge and skills

2. Improve relationship between students and teachers

~~And it will be much easier just to study as well.~~

To conclude, I would like to say that we don't have to avoid social networkings. ~~but we have to add it in our education system~~

Task 9.

1. Museum

2. Desk

3. School

4. Test
