Task 7.

She does not like a place where she lives and I understand why, because I also do not like countryside.

First of all, it is usually far away from technology progress but it is very important to be in trend in modern world, because almost every new technologies are very useful and interesting. Secondly, in suburb can not be a lot of people, so she probably has not got a lot of friends and she can feel herself lonely.

Task 8

Every year priority of our daily routine changes, but let's have a look at the pie chart which shows teens everyday activities.

The biggest section is "Sleeping", it's important for teenagers to grow up and to have a good rest in a sleep. "Eating" has 15 per cent, it's understandable because everyone need to eat. "Studying" has 15%. On the one's hand, it's not a lot for a good education, on the other's hand, teens also need a freetime without homework. "Videogames", "Online" and "Phone"

have 30% at all. I think, it's too much. But because of technology progress we just cannot spend less time without internet. "Sports" has only 10% and it's not enough, so teens should spend more time outside and working out.

In conclusion, I want to say, this pie chart pretty good suits modern time.

Task 9

1. mark
2. canting
3. backbag
4. siesta
5. training
