Task 8.

Nowadays teenagers may have different types of fourcarrife activities. According to the diagram, we can notice 7 of them.

The main ~~best~~ thing in the daily routine of 30% of participants is sleeping. People should sleep well to be healthy, but we should tell such people about another activities. Also, I have paid an attention ~~and~~ to teenagers' time for studying. Knowledge is power. ~~In~~ I think, students should expend their knowledges. It is very important to have a motivation to develop yourself. We should open new courses for students, invite them on meetings. We can see that 10% of students prefer to spend their time playing videogames and ~~to~~ being online. The Internet is great resource of information, but teenagers should not use it during a whole day. To increase the level of sportsmens, ~~sho~~ schools can build gyms.

All in all, teenagers should ~~under~~ understand an importance of leading an active way of life. If they ~~do not~~ not understand it they will have a boring life.
