Task 3.

Just when demographers are ringing alarm bells about overpopulation, Amazon founder Jeff Bezos says we need to populate our Solar system. Mr Bezos was asked for his thoughts on humanity living in outerspace in a thousand years time. He replied: "I would love to see, you know, a trillion humans living in the Solar system. If we had a trillion humans, we would have at any given time 1,000 Mozarts and 1,000 Einsteins... space would be ~~filled~~ full of life and intelligence and energy". He added that he wants to help build heavy infrastructure that will be just by the space on entrepreneurs of future generations... so that ~~in~~ ~~if~~ imagination can really be unshined.

Mr Bezos' thoughts are echoed by fellow multi-billionaire Elon Musk, owner of X (formerly known as Twitter). In 2021, he said of the human race: "We don't want to be one of those single-planet species; we want to be a multi-planet species". Earlier this year, Mr Musk

warned that "population collapse due to low birth rates is a much bigger risk to civilization than global warming... mark these words". Mr. Bezos can see rose of people living in giant space stations. He said most inhabitants of these would visit Earth for vacations. He envisions over planet returning to its pristine environment, as factories would be built in space. He said they would exploit resources on the Moon or on asteroids instead of juzzing up Earth.

Task 8.

Alaska was discovered by Russian travellers and it once was a part of the Russian Empire. However, after the USSR was assembled, this peninsula was given to the USA. Nowadays ~~it's~~ this state is known for its delicious caviar.

Most of us know Arkansas from a ^{children story} ~~fairy tale~~ about a girl, who was transferred to a magical land by a storm. And this is reasonable. The weather in Arkansas is nasty almost all the time.

Florida is a sunny state which is located on the south-east of the USA. It's one of the most popular tourist's destinations which is why this state is among the ~~richest~~ wealthiest.

Hawaii is a group of islands, which is considered to be one of the best well-known places for vacation. Fresh seafood, ukulele, white sand and long coasts... what a paradise.

Alabama is thought to be a traditional and old-fashioned state, that is why ~~it's~~ not that much popular. In real life, people from there just love to uphold traditions and remember their past.

Task 9.

This happened in 2019, when my mom, ~~aunt~~ and I decided to go ~~on vacation~~ to China. It had been 3 days since we arrived and we thought it might be a good idea to leave off

~~white sandy~~ beaches for a day and go sightseeing. Our destination was a park with a statue of goddess. But we didn't know it was two hours away from the city...

The problems started when we learnt ~~that~~ we had missed the only ~~one~~ bus that goes there, but none of us wanted to go step back so we ~~started seeking~~^{sought} for a taxi. Fortunately, we found ~~one~~^{taxi}. Unfortunately, we couldn't understand each other as neither ~~of us~~^{we} spoke ~~each others~~^{different} languages. Thanks to the Internet, we downloaded a translator and ~~finally~~ the ride began.

What could have gone wrong? ~~I'll tell you what.~~ The relief that ~~we~~^{we} were going ~~at~~ least somewhere made us relax and we kept track of where we were. When we ~~finally~~ arrived, there was no park! ~~I turned out,~~ The taxiist ~~got drove~~^{drove} us to the wrong place!

We had to go back to the city... but as we made a few steps, we saw a ~~huge~~^{colourful} temple! We spent there a whole day as it was one of the biggest temples in China.

A misadventure turned Adventure!
