8. If I have to finish revising our report I won't be able to attend the conference tomorrow.

9. Everybody in my ~~fat~~ family is computer literate.

10. I wish I could speak five languages!

Task 7

Many people have their own reasons not to like living in a big city, but there are common ones, which are to be described by me.

~~At~~ Firstly, there is a ^{ecological} bundle of ecological problems, such as air pollution leading to massive illnesses, because of people breathing in unhealthy gases.

Also in cities inhabitants need to pay a lot of money for their needs, what causes moving to cheaper areas.

Anyway, it all depends on your friend's opinion.

Task 8.

Recently I've found an interesting pie chart called "Teen Social Networking Stats". This topic is very trendy nowadays, that's why I want to write about it.

The most interesting fact is that 25 % of Facebook users are younger than 10 years old, which informs that even kids use social media. ~~The~~ Additionally, if we look at such numbers as 73% of teenagers having accounts on the platforms, 22% of them using ^{network} ~~it~~ very often and 37% texting there every day, we'll prove that young people actively use social networking.

In my opinion, the main reason for those statistics is fastly improving internet.

Some schools are slowly switching to web resources, including social media, because they suggest many useful functions, which are liked by teenagers. Of course, there are different laws, but in general moving's the best thing they could do.

Task 9.

1. museum

2. desk

3. school education

4. exam

5. homework
