Task 4

In the 21st century we have many ways to spend our free time. But in the countryside there is a very few number of places, where you can entertain yourself. In the countryside you know almost every person in your village, so it can be difficult to have new friends. There are some problems with studying, too. There isn't any universities or colleges.

In my opinion there are the main reasons ~~to hate~~ for hating living in the countryside.

Task 6

1. When had you seen this film?
2. I don't communicate with anybody who is too pessimistic.
3. Everybody in our company is eager to participate in this discussion.
4. Had your team played football this week.
5. Laura doesn't play tennis, so she won't take part in a tennis tournament.
6. I read an interesting book which I had bought last week.
7. Do we have anything for a barbecue party?
8. They finished editing this text two hours ago.
9. Can you write your business partner a thank-you note?
10. You should put your jacket up, it's cold and windy today.

Task 8

In the presented diagram we can see, what activities do during the day.

As we can see, young people spend 30 percents of their time on internet, ~~messen~~ ^{messaging} and videogames. Of course new technologies take a big part in teenagers' lives, because it is very important in the 21st century. But teenagers spend only 15 percents of their time on studying and ~~doing~~ homework. I think this number used to be bigger. But when internet became popular, it started taking much free time from young generations. So teenager should control their screen time. Young people spend 10 percents of their free time on sports, and it is very well! I think this is caused by popularity of sport. Everybody wants to be strong and fit, including teenagers.

Of course this diagram used to be different 20 years ago. But these changes will help teenagers to live in our changing world.

Task 9

1. determination
2. canteen
3. backpack
4. break
5. exercise
