Teens and social media.

~~I am going to talk about teenagers~~
~~daily activities in social media.~~ ~~As~~
I see, nowadays 73% of teens are on social
networks. ~~Also, it is not a secret that some~~
~~young people are addicted to the Internet~~
I want to show you teen social networking
stats and talk about them.

~~It is said that~~ 37% of youngsters
send messages to their friend every day.
I think it is ^{essential} ~~great~~ for ~~teen~~ teenagers, that
they can afford and use their devices
~~for the~~ ^{to communicate} ~~international communication~~. However,
it is ~~more~~ important not to chat, but
to talk with your friends and relatives.

Surprisingly, 22% of teenagers log on to Facebook over ten times per day. Also

the average teen has 201 Facebook friends.

It means that a huge part of teens use this social network to find information.

~~chat~~, ~~to chat~~ ~~and~~ to chat and to share their feelings. In fact 22% of ~~the~~ Facebook

users are under the age of ten. Due to that parents need to provide their ~~childs~~ kids from cyberbullying.

In my opinion ~~we~~ people ~~can~~ ^{should} use social media to communicate with each other and share their emotions ~~or~~ ^{with the world & other the audience}

But ~~you~~ ^{you should remember that} should remember that the
Internet is a fake world, where you
can be easily "eaten".
